

D. Buidze

**Towards Orthography of the Prefixes h-||s- in Bipersonal
Transitive Verbs**

Summary

The work discusses the problems of orthography of the prefixes h-||s- with the 3rd direct objective person. Compared with the data of Old Georgian, the dialects and modern literary Georgian, the problem has been posed comparatively differently concerning the norms of the Modern Literary Georgian Language. Namely: the spelling of the direct object personal markers (h,s) should be regarded as standard and its use should not be prohibited by "The Norms of the Literary Georgian Language".
