

I. Gabeliaia

**Ethno-historic Problems of the Family Names of Abasga Valley
(Based on the Materials of the Village of Seperti)**

Summary

Of the family names found in Seperti only the following seem to be indigenous: Ochigava, Labartqava, Topurida/Tonuria. The representatives of these indigenous family names live compactly in the village districts.

The representatives of other family names have settled here at different periods of history, some of them having migrated from Samuragana.
