## ON THE CHANGE OF FH [ÄR] PLURAL MARKER IN LATAL SPEECH

As is known in the specialist literature Latal - är in terms of formation of suffixal plural belongs to Balskvemouri which in the stems containing the "r" sound form their plural without dissimilation of the suffix èišduar- är, uarg= är...

The analysis of the materials recorded by the Dialectology Institute of KSU gives ground to conclude that Latal speech, according to the formation of =är suffixal plural, should be included in the Balszemouri dialect.
