GEORGIAN ANTHROPONOMIC MODEL IN THE PAST, PRESENT AND FUTURE

The question of the Georgian anthroponomic model from the ancient time to nowadays is discussed in the article. The historical sources, documents, ethnographic and folkloral data are proving the existance of three member model of Georgian anthroponomic model including the name, name of father and surname. In the present the name of father without any grounds is artificially forced out from Georgian anthroponomic model. Thus, the language user is left without the opportunity to get an additional information. In the article is arised the task of reestablishment of historically formed Georgian anthroponomic model and its transition into the Georgian language, the example of what is shown in the summary.
