

INEZA GABELAIA, DAVID SHAVIANIDZE

**FROM THE HISTORY OF THE "LAND" OF PERSATI
(on the basis of names and surnames)**

The study demonstrates that the "land" of Persati has a long history. The investigation reveals the history of our country, class relationship and its forms; public, economic, social and cultural changes occurring under the influence of foreign political domination. The facts of the survival of the Georgian identity thanks to the retaining of the religion are recorded once again.
