### SOME ACCOUNTS ABOUT BASIL OF ANCYRA (4TH C.)

Basil of Ancyra was a bishop in 336-360 B.C. in Byzantium. He was the leader of homoiusians and his importance in the history of Aryanism is immense. His work "On the Virginity" was erroneously considered to be lost but this is not the only point of view.

The treatise "On the Virginity" represented among Basil the Great's *spurias* is considered as pseudo-epigraphic work for more than a century and in fact Basil of Ancyra wrote it.
