**RHYTHM AND MUSIC IN
GURAM DOCHANASHVILI'S FICTIONS**

Rhythm and music takes important place in Guram Dochanashvili's creative works.

The musicality, rhythm and poetic nature of his language on one hand and the influence of pieces of music on his works, on the other, gives highly organized sequence of harmonic picture of the plain prosaic language and rhythmically arranged passages of his texts. Versatile counterpoints, and lei-motifs, rhythmic and rhymed passages endow the air of the long complex piece of symphony to G. Dochanashvili's works.
