### AN ASPECT OF THE LANGUAGE POLICY – LANGUAGE CENSORSHIP IN GEORGIA

On every stage of its existence censorship, one of the ancient ideological institutions, concerned with texts and considered the following parameters: the contents of the text, key words, and symbols. Implications, paralinguistic aspects style, spelling and the attitude towards the object or phenomena being expressed.

The censorship of the Soviet epoch attracts particular attention as it kept an alert eye for special ideological purposes in the republics and among them in Georgia.

Despite of the official abolishment of his institution in Georgia its long and persistent influence can still be traced in the lives its citizens.
