**ON SOME SVAN WORDS NOT REGISTERED  
IN DICTIONARIES**

The paper discusses the words recorded during field interviews carried out for years in the villages of Lenjeri, Latali and Mele, by the Institute of the Georgian dialects, ATSU. These are the lexical units that are not registered in the Svan vernacular dictionaries published to these days. Here I discuss the words *zango:re/zango:re*, *lilgeni*, *kitsora*, *lisuline*, *ichuku*... these words present an interesting material for the study of the Kartvelian words.
