MATERIALS FOR SVAN DICTIONARY (ACCORDING TO BALSZEMOURI SPEECH) II

The team of the Svan text researchers of the Kartvelian Dialectology Institute, ATSU, collected and recorded dialectological materials during the field work in the Upper and Lower Svaneti (in the villages of Lenjeri, Latali, Tskhumari; Mele). The processing of the texts revealed lexical units that had not been registered in the existing dictionaries (V. Topuria, M.Kaldani, Svan Dictionary, 2000; A. Liparteliani, Svan-Georgian Dictionary; B.Nizharadze, Georgian-Svan-Russian Dictionary, 2007).

This paper discusses the following lexical units: *ķevāsa/ķevāša*, *ķunķwil*, *lağwtawšu*, *libķūnali//lipķūne*, *liķwchi*, *linōkāl*, *ližurmīne*, *lipstune*, *lipunčuli*, *likōrdāl*, *liğūrmaķāl//liğūrmeķāl*, *nağwrew*, *qanāš*.
