SPELLS AND RELATED RITUALS – II

(ACCORDING TO NEW ETHNOGRAPHIC MATERIALS FROM *TSALENJIKHA*)

The proposed article provides the analysis of ethnographic materials that we recorded within the framework of the ethnographic expedition throughout villages of *Tsalenjikha region in the summer of 2015*. Various types of spells (i.e. spells for frightened as well as for those affected by the evil eye, and having infected fingernail/toenail, also, exorcizing spells, spells for scorpion- and snake-bites, etc.) are discussed along with the description of the related rituals.
