### FROM HISTORICAL GEOGRAPHY OF "INNER EGRISI" (TAKVERI/TAKVERI)ROAD, "SALECHKHUMO ROAD")

Regional toponymical materials in combination with written sources provide us with interesting data regarding the main roads located in Inner Egrisi. In particular, in the village Nagvazu of Martvili District the toponym "Saechkhomo road"/ "Salechkhomo road" (Salechkhomo, a road to Lechkhumi) has been recorded; the very toponym could be traced through the written sources as "Takveri Road".

This road maintained its importance even during Prince David Dadiani's life in the 19<sup>th</sup> century. From Zugdidi the road of central Megrelia or the same as the "Salechkhomo road" led to Khoni through Chakvinji, Lesichine, Jolevi and Nojiskhevi, while another road from Senaki led to Gordi through Nakalakevi, Martvili and Bumbua bridge.
