**ON GEORGIAN LEXICAN UNITS DENOTING  
CONVERSATION / TALK**

The lexical units that denote conversation as well as talk are of distinctive semantic variety both in the literary Georgian and the dialects. More than 100 synonymous units have been revealed.

The paper provides the analysis of the words denoting conversation / talk in Georgian. The material has been selected from various Vocabularies such as *The Dictionary of the Old Georgian Language* by Ilia Abuladze (1973), *The Georgian dictionary* by Sul Khan-Saba Orbeliani (1991-1993); *Georgian - Russian Dictionary* by Niko Chubinashvili (1961), *The Dictionary of Georgian Modes and Idioms* by Alexandre Glonti (1984), *The Explanatory dictionary of the Georgian Language* (1950-1964). Samples of Georgian literary writings are also analyzed.
